

# Catch Up with America at War

## CAMERA PORTRAIT OF AMERICA'S WAR PRESIDENT

The first and only photograph of President Wilson taken since the entrance of the United States into the war, showing him alone and at his great task.

## AMERICA'S FIRST YEAR

Detailed review of what our nation has accomplished and mapped out to do, including the figures of the army raised and trained.

## MONEY AND THE WAR

Review of how \$155,000,000,000 has been spent to make the world safe for democracy and how it is spent, the losses of \$40,000,000,000 of property by battle and submarine piracy.

## THE BATTLE OF THE AIR

Intimate review of aeroplane and airship in the fourth year of the war and what America will do to clip the wings of the Hun.

## FOOD AND FIGHTING

How an army not only marches but fights on its belly, the importance food will play in ultimate victory, and what our nation is doing to make the weight of its huge food resources count.

**W**HAT do you know about your country's war? What do you know about her struggle and how it is going for her?

Your country has been at war a year. What do you know about where she stands to-day in her pledge to make the world safe for democracy? Do you know how many men she has called to arms; how many trained? Have you an inkling of what bayonets she has at the front, and how many she can put there? Do you know where Americans are fighting?

You are **WITH** your country—but are you **UP** with her?

The great United States War Anniversary Number of **THE SUN**, which comes out tomorrow, will put you abreast America's first year in the war.

# U. S. War Anniversary Number The Sun

SUNDAY, MARCH 31

## WAR MAP OF THE AMERICAN FRONT IN FRANCE

Huge double page chart of the battle front where our boys are strafing the Hun, showing the smallest towns and villages, roads and streams.

## THE BIG GUN OF 1918

Close scrutiny of the masterful part monster ordnance is playing in land fighting and the development of long range marksmanship.

## AFTER THE WAR—WHAT?

George E. Roberts, assistant to the president of the National City Bank, makes a far sighted forecast of post-peace conditions and problems.

## HOW SOLDIERS DIE

A close to the trench picture of the way warriors "go west," written by a Scotch chaplain who has soothed the last moments of many a poor chap.

## THE "STARS AND STRIPES"

A bit of the newspaper from which Pershing's boys get their news of what is going on at the front and elsewhere, chiefly elsewhere.

**I**T will place before you the sum total of American accomplishment, and make you ready to understand the momentous events sure to come in the next twelve months.

The entire Magazine Section of **THE SUN** is given over to the first commemoration of our nation's entrance into the war. It deals with every phase of the great conflict. It shows where America stands to-day in the struggle against the Hun—how she is fighting and where.

This magnificent expression of American war spirit begins with a striking full-page camera portraiture of our war President, the first photograph taken of Mr. Wilson alone since war began.

It ends the full story of our nation at arms a year.
